2023 Corporate Governance Evaluation Results in Taiwan

About the “Corporate Governance Evaluation System”

The Financial Supervisory Commission (the FSC) has long emphasized Corporate Governance (CG) as a priority to accelerate this development among listed companies. The "Corporate Governance Roadmap" was first issued in December 2013, the 2.0 version in April 2018, and the 3.0 version in August 2020. Afterwards, the “Sustainable Development Action Plans for TWSE and TPEX Listed Companies (2023)” was released in March 2023. According to the roadmaps and action plans, the implementation of the Corporate Governance Evaluation is one of the major projects with the goal of investors and enterprises better understanding CG performance by comparing the evaluation results among companies.

In 2014, the Taiwan Stock Exchange Corporation (the TWSE) and the Taipei Exchange (the TPEX) launched the “Corporate Governance Evaluation System,” which is annually conducted by the Securities and Futures Institute (the SFI). It is understood this evaluation system can act as a catalyst for change in which listed companies champion corporate governance by voluntarily including CG into their procedures and strategies. This creates healthy competition among listed companies and cultivates the development of CG thinking into daily practices.

This is the tenth year of the evaluation and the results were published on April 30, 2024. There were 952 from TWSE- and 754 from TPEX-listed companies evaluated in 2023. The evaluation results were not only released on a listing market basis but also on an industry and market capitalization basis. Industry and market capitalization differentiations were seen in five sectors, including 42 in the financial industry, 272 in electronics¹, 263 in non-finance and non-electronics², 313 mid-cap companies³ and 816 small-cap companies⁴. The full results are disclosed starting from page 5.

¹ With a market value of TWD10 billion or more by the end of 2023.

² With a market value of TWD10 billion or more by the end of 2023.

³ With a market value between TWD5 to 10 billion by the end of 2023.

⁴ With a market value under TWD5 billion by the end of 2023.

Evaluation Indicators

1. Weighting of indicator categories

The evaluation indicators comprise the following four categories and 80 indicators, with the categories and their weight shown as Table 1:

Table 1: Categories of Indicators and Weight

Category		Number of Indicators	Weight Assigned
I	Protecting Shareholder Rights and Interests and Treating Shareholders Equitably	18	22%
II	Enhancing Board Composition and Operation	25	31%
III	Increasing Information Transparency	15	19%
IV	Promoting Sustainable Development	22	28%
	Total	80	100%
	Extra Credit Indicators	1	-
	Point Deduction Indicators	1	-

2. Calculation of scores

(1) Calculating scores for a category

Scores for a category are calculated in the following manner:

$$\frac{\text{Number of satisfied indicators in the category}}{\text{Total number of applicable indicators in the category}} \times \text{category weighting}$$

(2) Calculation of total scores

The points for all categories are summed up to obtain the total score for all categories. (The maximum possible total score for the four categories is 100 points.) Any additional points and point deductions are then added or subtracted, as the case may include any additional points for AA indicators and A+ indicators, and any extra credit points or point deductions, to obtain the final total score.

Companies subject to evaluation

Except some companies with inadequate data (listed after January 1, 2023) or having met certain regulatory circumstances, all TWSE/TPEX-listed companies were covered by the Corporate Governance Evaluation System.

Scope of Information to be Evaluated

The 2023 evaluations will be based on information disclosed by evaluated companies from January 1 to December 31 in 2023, including: corporate governance information posted to the Market Observation Post System (“MOPS”) website, in annual reports and on official company websites; corporate governance incidents that occurred during the year; information on the operations or exercise of duties at the shareholders’ meetings, board meetings, and the independent directors; the supervisory records of the FSC, TWSE, and TPEX; information collected from questionnaires returned by the chief internal auditor and the external auditors of the companies, and information entered by companies on the self-evaluation website.

List of the evaluation results (in company code order)

[TWSE-listed companies]

- TOP 5%

Forty-eight TWSE-listed companies were evaluated as the top 5% in 2023.
