

2013 Information Disclosure and Transparency Ranking Results in Taiwan

Conducted by the Securities and Futures Institute
Entrusted by Taiwan Stock Exchange Corporation &
GreTai Securities Market

Despite all reasonable care given in the screening process to ensure objectivity, the SFI bears no responsibility in case of any damage or loss incurred from use of the ranking results.

June 20, 2014

2013 Information Disclosure and Transparency Ranking Results in Taiwan

About “Information Disclosure and Transparency Ranking System”

The recent media focus on corporate governance has prompted calls for greater transparency and disclosure on companies around the globe. As a result, several leading financial information providers have launched disclosure rankings, evaluations, and research related to how companies disclose information to rely on market force and mechanisms to encourage voluntary disclosures of companies. However, the evaluation criteria selected by those rankings, to some degree, could not provide an overall evaluation of disclosure practices in local markets. In additions, there have been calls for standard setters and regulators to expand disclosure requirements according to international standards. Therefore, the Securities and Futures Institute (“SFI”), entrusted by the Taiwan Stock Exchange Corporation (“TWSE”) and the GreTai Securities Market (“GTSM”), launched “Information Disclosure and Transparency Rankings System”(IDtrs) to evaluate the level of transparency for all listed companies in Taiwan since 2003. For the eleventh time, the 2013 full-year ranking results were released on June 20, 2014. Following the last year’s practice, this year, we release the full ranking results as well. In the 1,350 listed companies of TWSE and GTSM, 49 companies were ranked as “Grade A++” , 61 companies were ranked as “Grade A+” , 232 companies were ranked as “Grade A”, 401 companies were ranked as “Grade A-”, 477 companies were ranked as “Grade B”, 114 companies were ranked as “Grade C”, and 16 companies were ranked as “Grade C-”. For full ranking results, please visit website at <http://www.sfi.org.tw>.

Objectives

- ◆ To promote corporate transparency by developing evaluation criteria which not only well examine local disclosure practices but also comply with international standards.
- ◆ To assist companies in reducing cost of capital as disclosure level increases.
- ◆ To enable investors to better protect their interest through use of ranking results as an additional decision-making tool.
- ◆ To help regulators better monitor the market.

Companies Covered

Except some companies with inadequate data (listed after January 1st, 2013) or regulatory enquires, all TWSE/GTSM-listed companies were covered by IDtrs.

Evaluation Criteria

The IDtrs gauged the level of corporate transparency by searching annual reports, regulatory filling via internet, and company websites. In order to access the transparency and disclosure practices of listed companies, IDtrs identified 109 disclosure items as evaluation criteria grouped into the following five categories:

- ◆ Compliance with the mandatory disclosures
- ◆ Timeliness of reporting
- ◆ Disclosure of financial forecasts
- ◆ Disclosure of annual reports
- ◆ Corporate website disclosure

Each disclosure item is in the form of a “yes” or “no” question to ensure objectivity (each “yes” question is equal to one point and each “no” to zero). Since IDtrs focuses only on the existence of each disclosure item, IDtrs does not endeavor to access the accuracy of the information.

Screening Process

A two-stage of screening process was conducted. All information provided was preliminarily screened by the SFI in-house ranking team based on the existence of each disclosure item. All companies were entitled to check the preliminary result via internet, then directly respond to the SFI regarding ambiguous issues in two weeks. Upon receiving the different opinions expressed by companies, the Ranking Committee, composed of experts from accounting profession, industry and academia, accessed the presentation of information and proposed ranking results and subsequently the Corporate Governance Consulting Committee decided the final list of company ranking results.

List of the ranking results (in company code order)

• **Grade A++**

In total, 49 companies were ranked as "Grade A++" in year 2013.
